3. Service levels

The Provider will operate the environments listed in Section 2 as a managed service. Production environments are covered by a monthly availability target of 99.9%. Non-production environments are provided on a best-effort basis. Support is available 24/7 for Priority 1 incidents and during business hours (08:00 to 18:00 in the hosting region) for all other requests.

4. Disaster recovery

The Provider will take daily backups of all environments and store them in a second Australian availability zone. In a declared disaster, the Provider will restore the most recent backup within the stated recovery time objective.

5. Activation and provisioning

Following signature, the Provider will activate the contract, create the billing agreement and the cloud subscriptions for each environment, and send a welcome email to the Customer contact. Provisioning of application sets is requested separately by the Customer after activation.

6. General terms

This Agreement renews automatically for successive twelve-month periods unless either party gives ninety days' written notice before the end of the current term. Fees are payable within thirty days of invoice. This Agreement is governed by the laws of the Federal Republic of Germany.
